Track in real-time from your internet browser or mobile phone

- Track as much as you want
- \$14.99/mo, no contract
- Canada and US coverage

BlackLine GPS Snitch®

BlackLine Web tracking interface

Portable design.

GPS Snitch® from BlackLine GPS™ is completely portable and requires no installation. It features UltimateSense™ GPS tracking technology and can be conveniently hidden without compromising tracking performance. Unbeatable protection for your autos, motorcycle, work truck and more.

Motion-sensing Technology

While armed, GPS Snitch operates like a silent alarm system, alerting you instantly through email and SMS when it senses motion.

GPS Security Perimeter

While armed, GPS Snitch uses GPS to monitor your vehicle. It alerts you instantly thru email and SMS if Snitch leaves a security perimeter.

Real-time GPS Tracking

Track using your Web browser in real-time. Track as much as you want with no overages or hidden charges. Location sharing features allow you to share your travels with friends and family.
