BlackLine GPS Harpoon™

BlackLine Web tracking interface

BlackLine Recovery Service™

Harpoon from BlackLine GPS™ features the BlackLine Recovery Service™. If your watercraft is stolen, the BlackLine Recovery Service works on your behalf with the authorities using Harpoon's real-time GPS tracking.

GPS Security Perimeter

Harpoon monitors the security of your watercraft using GPS. If Harpoon leaves its security perimeter, the BlackLine Recovery Service is automatically notified.

Automatic arming and disarming

Harpoon features BlackLine's Aura™ Technology. Harpoon wirelessly detects your MyPass™ keyfob when present and disarms automatically. When you leave, Harpoon automatically arms.

Real-time GPS Tracking

Track using your Web browser in real-time. Track as much as you want with no overages or hidden charges. Location sharing features allow you to share your travels with friends and family.

MyPass™ Keyfob
